

Ref: 5 Micron Filter - Notice of Change in Appearance

From: Spectra Watermakers

To: Spectra Watermakers - Licensed Distributors

Date: 6/22/2022

5 Micron Filter Appearance Change Notification:

This Technical Bulletin is an announcement to our network of distributors that there will be a **temporary** appearance change for our Nominal 5-Micron Filter Cartridges (**FT-FTC-5**). The plastic on the 5-Micron Filter cartridges has changed from the normal white color to a dark blue color (not to be confused with the lighter blue on the 20-Micron Filter Cartridges). There is no change in quality with these filters. Due to the state of the global supply chain, we are unsure at this time how long this temporary change will last. We will notify our distributors again once our vendor is able to re-stock their 5-Micron filter with white plastic.

Please communicate this temporary change to customers at the time of sale in order to alleviate confusion, as well as reduce calls to your business and into the factory. Thanks for your cooperation and we appreciate your continued business!

New 5-Micron Vs. Old 5-Micron
